Definition of Match Play

Match play is a golf format where scoring consists of individual holes won, halved or lost. On each hole, the most that can be gained is one point. Golfers play as normal, counting the strokes taken on a given hole. The golfer with the lowest score on a given hole receives one point. If the golfers tie, then the hole is halved. Once a player is "up" more holes than there are holes remaining to play the match is over. For example, if after 12 holes Player A is 7-up with six left to play, Player A is said to have won the match "7 and 6".
